To whom it may concern,  
I am a customer of XM radio and I really enjoy the variety of the programing and having the weather and driving conditions available at my fingertips. I still listen to FM and AM radio and XM just provides me with more options, especially when traveling long distances. It provides continuous entertainment and information in case of an emergency. I pay for this service and would prefere that it be unregulated and it allows me to regulate it my self. Please reject the NAB's petition 03-160.

thank you,

Louie A Carrascoco
